Researching skills, Creativity,  
Attention to detail, **Curiosity**,  
Empathy, Willingness to learn

## PROFILE

I am a passionate motion designer with a strong record in creating compelling motion graphics and digital designs across 2D, 2.5D, and 3D formats. My goal is to turn ideas into visually striking assets that captivate audiences and drive business success. With meticulous attention to detail and a deep understanding of design principles, I craft engaging visual experiences. I am a self-starting, quick learner with excellent time management skills and a can-do attitude. Comfortable working in various design programs and mediums, I thrive in both collaborative team settings and individual initiatives. I enjoy the process of bringing a design from concept to a final product.
